Batch	
Marking Guide	
1. Ideation	2
2. Applying “60-30-10 rule” when deciding the colors	2
3. Selecting suitable layouts	2
4. Using proper views for the user interface	2
5. Interactivity	1
6. Creativity	1
Total Marks	10
Evaluator	

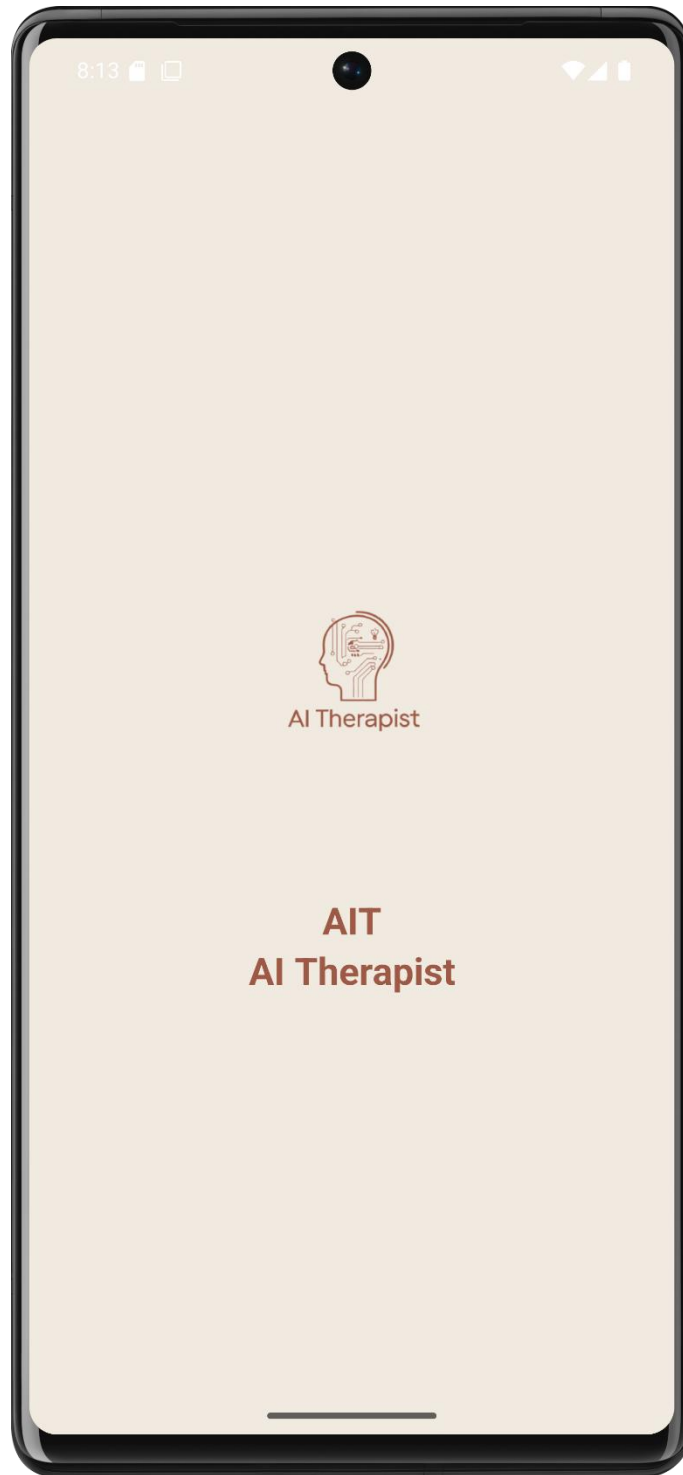

Description:

For every person requiring stress reduction, emotional balance, and self-improvement, our AI Therapist App is intended to make accessible mental healthcare. Our clients are able to have meaningful conversations with a smart AI chatbot to track their mood, set individualized health goals, and reduce stress. The app makes mental healthcare accessible anywhere and anytime by integrating cutting-edge AI technology with an easy-to-use interface.

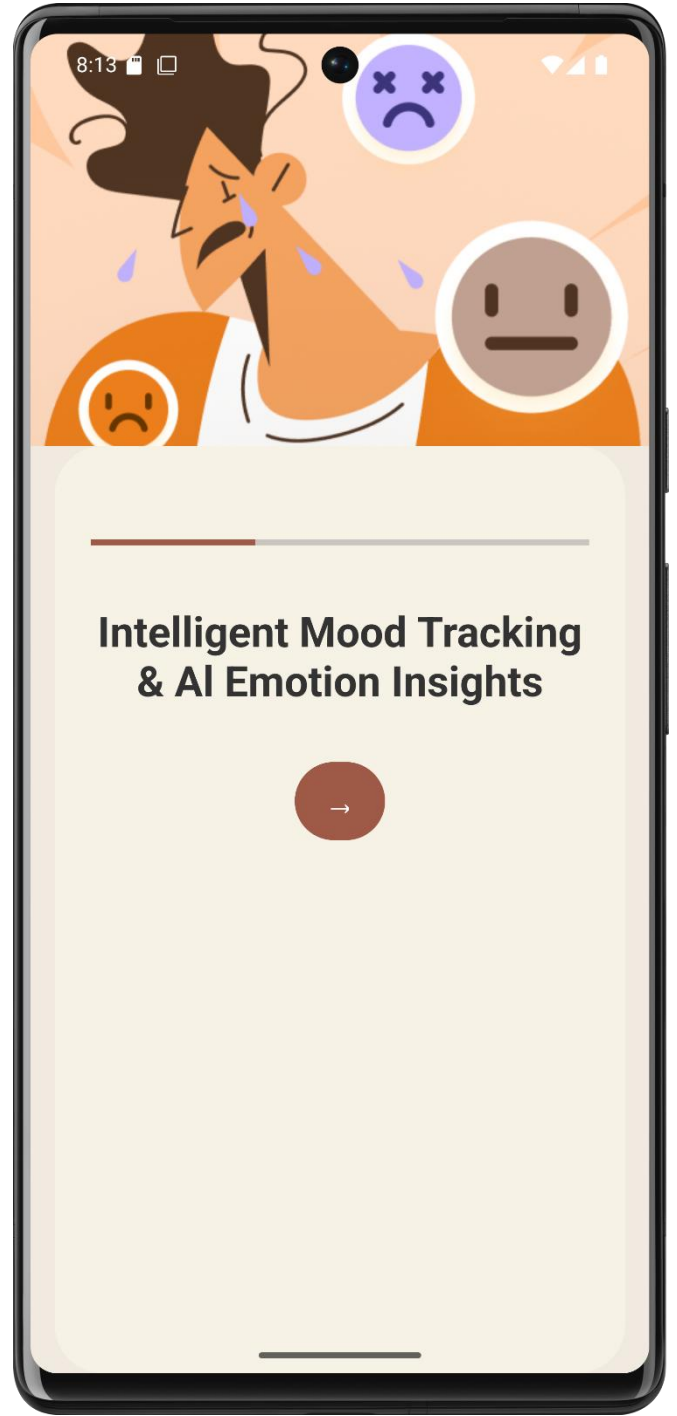

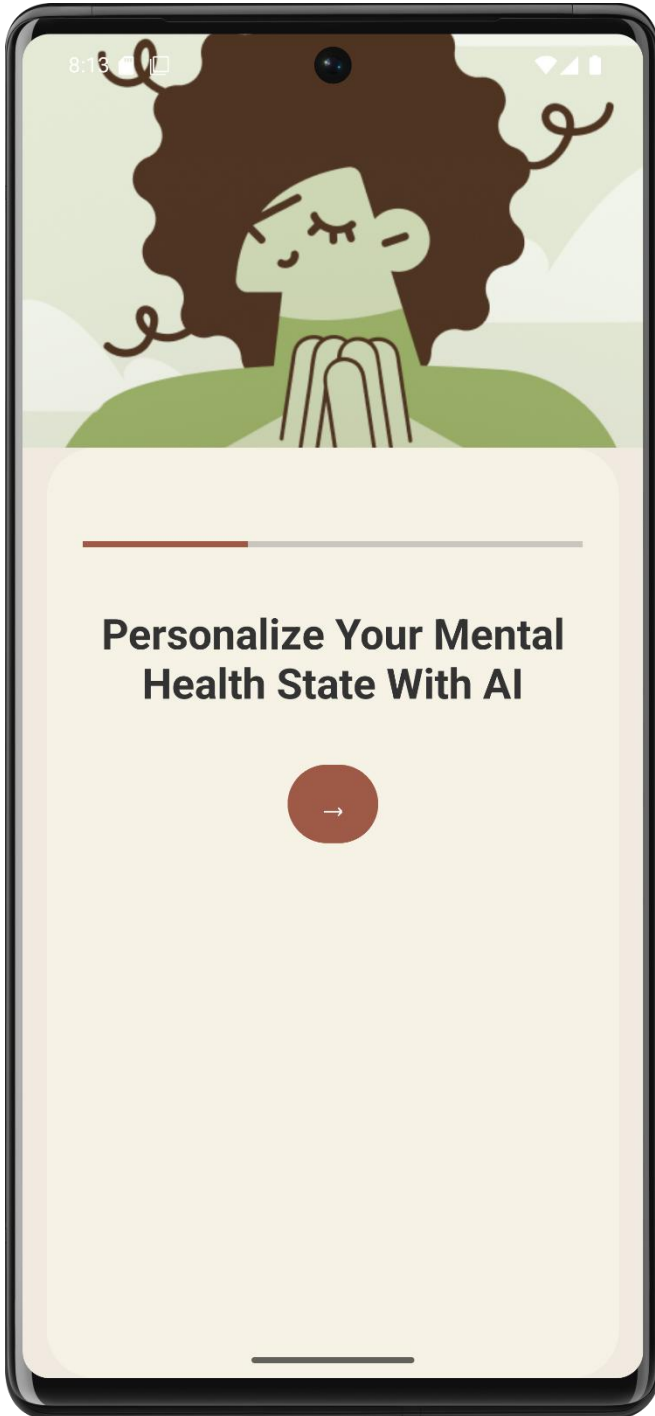

In addition to conversation, the app offers guided meditation and relaxation training to help users focus better and manage their anxiety. Among the features that guarantee a safe and personalized experience for students, working professionals, and the general public are progress reports, health goal tracking, and secure sign-in. The app establishes a comfortable space for users to engage with an AI companion for their mental health through text or voice communication.
